

DEMAG

Cranes & Components

“Built on people, pride, technology and customer service”

Locally owned and operated.

Overhead Cranes and Hoists

Pinnacle is highly experienced in design, fabrication and installation of new crane systems including single and double girders, runways, freestanding structures, gantry and jib cranes as well as wire rope and chain hoists. We pride ourselves in our installation and modernization capabilities such as speed and capacity adjustments and underhook attachments.

In addition to this, we provide routine maintenance and emergency service. We are Canada's #1 leading Demag dealer but also offer a vast number of other product lines. Pinnacle Industrial Services specializes in turnkey projects. From inception to delivery, Pinnacle will be there through each step of the way helping our customers design and manufacture the equipment they require in a cost and time effective manner.

Service & Repair

- We service all manufacturers' equipment
- Highly trained service professionals
- Mobile Units carry large selection of replacement parts
- Generally repairs can be made on the first visit, keeping downtime to a minimum

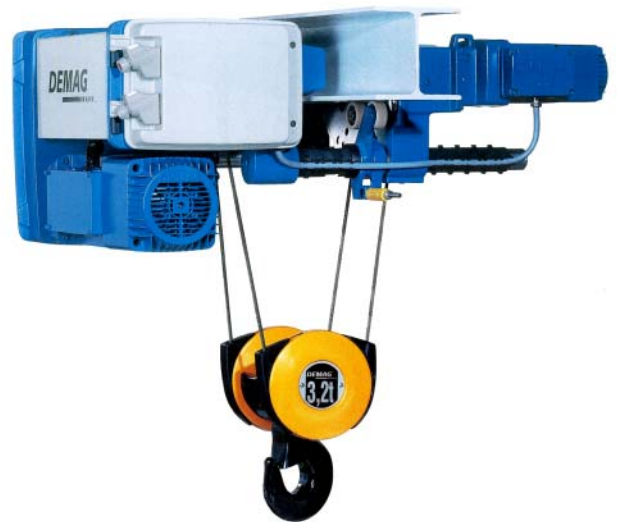

Maintenance & Inspection

- Safety inspections to meet government requirements
- Preventative maintenance inspections:
 - inspect, clean and adjust brakes
 - inspect all electrical components
 - inspect and lubricate rope, rope guides, load chains, sheaves, hooks and blocks
- Provide itemized repair estimates
- Issue Inspection Certificates
- Planned maintenance:
 - minimize repair and maintenance costs
 - minimize downtime and production loss

Installation & Modernization

- Changes in speed and capacity
- Below the hook attachments
- Radio control conversions
- Variable frequency drives
- Festoon and pendant systems
- Anti-collision devices
- Complete upgrades designed to reduce repair costs and guarantee the long term viability of your equipment
- Control upgrades
- New hoists, end trucks and girders
